Re: *Unbundled Access to Network Elements, WC Docket No. 04-313; Review of the Section 251 Obligations of Incumbent Local Exchange Carriers, CC Docket No. 01-338*

Dear Ms. Dortch:

In an *ex parte* filed on August 18, 2004, SBC submitted maps depicting competitive fiber networks deployed in 22 MSAs in its operating territory, and stated that those 22 MSAs accounted for 80 percent of SBC's special access revenues.¹ In its comments filed in the above-referenced dockets yesterday, SBC repeated that those MSAs accounted for 80 percent of SBC's special access revenues.² Yesterday evening, SBC discovered that the 22 MSAs actually accounted for 70 percent, not 80 percent, of its special access revenues. This letter is provided to clarify the record on this point.

If you have any questions concerning the foregoing, please contact me at: 202-326-8909.

Sincerely,

/s/ **Christopher M. Heimann**
